Why NxPay?

With the myriad of payment systems that flood the world internet market, security levels protecting you and your information are beginning to wear thin. NxPay is able to see through this dilemma and has created the solution.

NxPay uses a very simple one time registration system and the requirements needed to open an account with us are for one simple reason, your protection. Internet fraud is not a thing of the past; in this global market we have only seen the beginning of what hackers and identity thieves are capable of. At NxPay our programmers know and understand payment systems and have created a system that ensures your security and safety.

Manage multiple accounts, in multiple currencies all from your main client page. Possibilities end only where global currencies do. Welcome to NxPay, your answer to global on-line purchasing.

Please choose from the options in the side menu to create an account, activate your account or to contact our support staff.

RESEND ACTIVATION EMAIL

Email*:

Submit

Enter the email used in creating the account.

Click "Submit"

The Activation email shown at the beginning of this slide will be sent to the email that you provided, as long as it was the same email used when the account was created.

If you do not receive the email, within an hour, you should notify the merchant you are signing up with and request their assistance.

Please contact your sales representative with any questions or send an email to support@nxpay.com .

Thank You for your time and your business!
